

Who Is Your Main Man?

My name is Donald Main. Originally from Ireland, I now live in Manhattan. For many years, my family, friends, and co-workers have relied on my technical skills. I have spent countless hours inside homes, helping install and troubleshoot computers, set up TVs, connect cable or satellite systems, hook up complex stereo systems, etc. This kind of work is second nature to me.

Trustworthy, Knowledgeable, Patient, & Efficient

These are some of the qualities you can expect in me. Perhaps growing up in a multi-faceted family business in Ireland gave me the work ethic and experience needed to be in this business. One minute I'd be wiring a door bell, and the next minute I'd be operating the local telephone exchange or repairing the plug (power cord) to a radio. I have always been a patient person, though maybe my many visits to Greece have helped. One of my favorite Greek sayings is "Siga,siga" (translation: slowly, slowly or, all in good time), which is definitely my motto.

These traits are equally balanced by a keen Irish sense of "waste not, want not," as in, I will not waste your time. I work as quickly and efficiently as possible. Oh, and I do clean up after myself, too!

All this to say, the technology issue that's driving you crazy won't frazzle me. I'll more than likely find it a welcome challenge.

Donald Main

Contact Me for Assistance

Your Main Man has been established in response to the ever-increasing need for assistance at home in coping with the complexities of modern day electronics.

For many, our modern home "conveniences" turn out to be anything but.

My job is to help you get the most from your investment, whether I'm installing new computer software, connecting your TV to your stereo, or helping you take advantage of lower-priced Internet phone services.

Services Provided

720p or 1080p HDTV? 5.1 or 7.1 Surround Sound?

- ▶ Looking to buy, or have you just purchased, a new TV? Your Main Man will help you decide which one to get and then come to your home and connect it to your cable or satellite service.
- ▶ Why not connect your new TV, DVD, VCR, or Blu-Ray player to a new A/V Amplifier, or to a regular stereo system, so you can enjoy cinema-like sound and picture?
- ▶ Let Your Main Man deal with the jumble of wires for you.

Confused by All the New Internet & Phone Options?

- ▶ "My cable company says now I can get my Internet and my phone service through them too."
- ▶ "Is Skype the same thing as VoIP?"
- ▶ It's all so confusing.... Well, it needn't be.
- ▶ Your Main Man will go over the pros and cons of your Internet and phone options, so you can make the best possible decision and choose what's right for you.

Apple Computers a Specialty

- ▶ Your Main Man has been a fan of Apple Computers since 1988, and they just keep getting better. Not to worry if you have a Windows PC: Your Main Man is happy to help with the problems you're probably having (wink, wink).
- ▶ Your Main Man will set up your new computer, printer, etc., or recommend what to do if your existing device is not well. We can discuss your options for a wireless home network and most other computer/Internet-related options too.
