

# TECHNICAL HOUSE CALLS

## YOUR MAIN MAN

[www.yourmainman.net](http://www.yourmainman.net)

***Apple Computers, Windows PCs, Printers, TVs, Stereos, Blu-Ray and DVD players, Phones, etc.***

If you have electronic equipment that you can't seem to figure out, I'll come to your home and help simplify your life. I'll take the time to explain your home electronics options in everyday language, letting you know the pros and cons of any decision you may be contemplating as well as help you with problems you may be experiencing.

### ***Contact me for assistance.***

Your Main Man has been established in response to the ever increasing need for assistance at home in coping with the complexities of modern day electronics. For many, our modern home "conveniences" turn out to be anything but. My job is to help you get the most from your investment, whether I'm installing new computer software, connecting your TV to your stereo, or helping you take advantage of lower priced Internet phone services.

All this to say, the technology issue that's driving you crazy won't frazzle me. I'll more than likely find it a welcome challenge.

My name is Donald Main. Originally from *Ireland* I now live in *Manhattan*. For many years, my family, friends and co-workers have relied on my technical skills. I've spent countless hours inside homes, helping install and troubleshoot computers, set up TVs, connect cable or satellite systems, hook up complex stereo systems, etc. This kind of work is second nature to me.
